Conference

(Feedback about accuracy, strategies,

fluency, comprehension and advice given)

Date

Choose

- Your teacher will tell you what colour books to start with.
 - Choose a story that interests you.
 - Discuss the story with your teacher.

Practise

Listen to the audio support and read along with your eyes, not your voice.	
 Repeat with the same story and audio support at least twice a day until you think you are ready to read it without the audio support. 	
• Mark on your graph each time you practise.	
You are aiming to be able to read the story, by yourself, fairly fast and without many mistakes. Other students have found they need between 5 and 10 practices. You may need more or less.	
When you think you can read the story well, by yourself, practise without the audio support.	
Try NOT to point but if you can't follow along, move a finger of your left hand down the left margin, for a while.

Conference

- Choose a part to read to the teacher.
- The teacher will choose a part for you to read, then discuss what you have read with you.

Your teacher will write some conference comments in this booklet and advise you to:

- Practise some more with the same book (and maybe audio support).
 - OR Do an activity.
 - OR Read another book of this colour.
 - OR Read a book of a different colour. (They'll tell you what colour.)

If you take home a book and/or audio support, be sure to return them for practice at school the next day.

Stories you can read easily can go home and into the classroom for Easy Reading Practice.
