Daniel Pluck | CEO

Records should be kept showing that pre and post Running Records or Cloze Assessments have been completed, our programme has been followed with each of the 20 books at your student's 'colour' - their instructional reading level. The records should show that there has been audio-supported and independent practice with at least one activity completed per title. In the unlikely event that, for the same colour, your student is not then reading at an independent level - shown by the latest assessment - our 'Reading Improvement Guarantee' will then be engaged (as long as this is noted on your invoice/receipt of kit purchase).

NOTES: Guarantee available for Rainbow Reading and New Heights kits; 20 books, Activities and at least one Reading Pen. While we ask that you contact us within 90 days of purchasing, at just 30 minutes per day, and 5-day weeks, all 20 books could be completed in under 10 weeks.
